### SUMMARY

---

Experienced Web & Mobile Developer with over 6 years of expertise in designing, developing, and optimizing high-performing web and mobile applications. Demonstrates strong problem-solving abilities and a collaborative approach, thriving in both team and independent work environments.

### EXPERIENCE

---

#### GUE Ecosystem (Dexa Group) – Tangerang Selatan, Indonesia

Mobile Developer (December 2019 – Current)

- **Led a team of 4 mobile developers** to deliver a high-performing, reliable application, promoting collaboration and ensuring stability throughout each development stage.
- **Implemented industry best practices for app security**, including encryption, anti-root/jailbreak measures, SSL pinning, and secure authentication protocols, achieving full compliance with **ISO 27001** standards to safeguard user data.
- **Enhanced code quality** and observability through continuous maintenance, strategic refactoring, and comprehensive unit testing, ensuring code reliability, minimizing bugs, and improving overall application stability.
- **Architected scalable mobile solutions using Flutter and React Native**, optimizing code reusability and developing internal tools to streamline processes, ultimately **reducing development time by 30%**.
- **Collaborated with cross-functional teams** (product managers, designers, backend developers) to align on project goals and timelines effectively.
- **Spearheaded CI/CD pipeline implementation**, automating build and deployment processes for faster releases. Integrated Chucker and flavors to streamline debugging and provide instant notifications when applications are built and ready for QA testing.
- **Integrated third-party APIs and SDKs** (Analytics, Messaging, Crashlytics, Remote Config, GraphQL sockets, BLE services), enhancing app functionality with minimal performance impact.
- **Created a deeplink service that reduced bounce rates for "Teman Bumil" Web**, ensuring new users are redirected to the appropriate app store based on their device, enhancing user acquisition.
- **Experienced in implementing features** such as in-app purchases, promotional vouchers, real-time bidding, community forums, loyalty points, and dynamic home pages, enhancing user engagement and overall app functionality.
- **Developed and maintained the "Teman Bumil" app**, achieving an impressive **crash-free rate of 99%** both iOS and Android. The app has garnered over **4M downloads**, consistently maintained **200K monthly active users (MAU)**, and received high user ratings of **4.9 on the Play Store** and **4.7 on the App Store**, reflecting exceptional user satisfaction and performance.
- Also **developed and maintained "Teman Diabetes," "D2D," and "DKonsul,"** each achieving over **50K+** downloads, maintaining a **crash-free rate above 95%**, and earning **user ratings above 4.2** on both iOS and Android.
- **Agent of innovation 2023** (Mums Budget: Analysis and recommendations for childbirth)
- **Champion of the 2nd Ideation Fest 2024** for "Teman Promo," generating additional revenue through social media initiatives.

#### Sigma Cipta Caraka (Telkomsigma) – Jakarta, Indonesia

Front End & Mobile Developer (October 2018 - December 2019)

- **Collaborated with project teams** to design and implement user-friendly and visually appealing interfaces for both applications and websites. Adapted mock-ups and wireframes to effectively resolve user experience challenges and project-specific requirements.
- **Development and maintenance** of the M-Bike iOS app and M-Bike CMS Admin system, addressing and resolving bugs, and ensuring the seamless distribution of updates and features to enhance user experience and functionality.
- **Developed and maintained key software solutions**, including NSAM Tools, Hirest, and Iris, identifying and fixing bugs to improve performance and reliability across diverse platforms.

## ICON+ (PLN Group) – Jakarta, Indonesia

Web Developer – Internship (Jul 2018 - Oct 2018)

- **Developed a web application** for asset management, lending tools, and car loans, enhancing operational efficiency.

## Telkomsel – Jakarta, Indonesia

Web Developer – Internship (Feb 2017 - March 2017)

- **Collaborate with mentors** to analyze and design the Telkomsel ICLIMA (Integrated Compliance Management System) application, which is utilized for managing compliance audit documents.
- **Developed and implemented features**, resolved bugs, and conducted unit testing to ensure application reliability and performance.

## Freelance

Software Engineer

- **Layla Laundry**: Developed an end-to-end application for booking and managing laundry orders using Flutter and Laravel Lumen.
- **Sushi Hiro**: Created a comprehensive loyalty points application utilizing React Native
- **KUY Entertainment**: Built a complete entertainment application leveraging React Native and GraphQL for seamless user interaction.
- **PT. Resik Cemerlang**: Designed and implemented an end-to-end Delivery Order application using React Native.
- **Otocentre**: Developed a comprehensive automotive marketplace application using React Native.
- **Hublagram**: Created a mobile application for purchasing followers and likes, utilizing React Native for a user-friendly experience.
- **SMK Assu'udiyah**: Developed an attendance mobile application using React Native, with Laravel Lumen serving as the API backend.

## EDUCATION

---

### Pamulang University (2018 - 2022)

Bachelor of Information engineering - GPA 3,72 / 4,0

### SMK Informatika Utama (2015 - 2018)

Software Engineer - GPA 3,2 / 4,0

## TECHNICAL SKILLS

---

- JavaScript: React Native, ReactJS, Redux, NextJS, AngularJS, JQuery
- Flutter with BloC, RxDart or Provider
- REST API & Git Versioning Control
- PHP: Laravel, Lumen, CodeIgniter, Native; HTML5, CSS, MySQL
- NodeJS, ExpressJS, MongoDB
- Objective C (iOS)
- Firebase, Supabase, Tailwind, Native Base, Bootstrap, etc.
- BLE Services
